AI-Use-Evidence/ai-use-log.md

Date	AI tool used	Purpose	What prompt/task was used?	How did we check or change the output?
15/05/2026	Gemini (Google AI)	Debugging HTML structure and refining Code for the Welcome Page.	Check this HTML code for errors. Why is my Canva image not centering? Suggest ways to make the buttons look more interactive.	Our group reviewed the suggested code changes. We manually adjusted the Code Grok values to match our Canva color palette and renamed classes to be more descriptive for our project structure.
15/05/2026	Grok	Topic research and simplifying complex cyber-security concepts.	Research current phishing email tactics for 2026. Explain why 'urgent' language is used in phishing and give examples for a university setting.	Our group read through the research provided by Grok. We took the "confusing" parts of the explanation and re-worded them into simple, 18-25-year-old friendly language for our game's instruction page.
