

AI rule

AI may support brainstorming, wording, debugging, design ideas, and explanation. AI must not replace your own thinking, contribution, reflection, or understanding. If you use AI, record it honestly in the AI log.

Date	AI tool used	Purpose	Prompt/task summary	How we checked or changed the output	Student responsible
29-05-2026	GROK	Brainstorming Structure	Suggest a standard 10-slide outline structure for a 15-minute group presentation on a software lifecycle project.	Read through the outline and customized it to divide the slides into 6 individual speaking tracks to match our group numbers.	Manish Thapa
28-05-2026	Gemini	Formatting & Markdown	Organize our raw handwritten meeting notes and task distributions into a clean, scannable Markdown table format.	Cross-checked the table against our original notes to ensure names, deadlines, and responsibilities were 100% accurate.	Sujal Pathak
28-05-2026	ChatGPT	Wording & Grammar	Review the grammar and phrasing of our 'End-of-week short progress update' text to make sure it sounds professional.	Verified the edits to make sure the technical details about our HTML/CSS/JS code and testing remained correct and true to our work.	Manish Thapa
